WELCOME

TO THE FOREST PARK MEDICAL
OFFICE BUILDING.

This new state-of-the-art medical office facility offers medical professionals an ideal location to base their practice and patient visits.

The building features 72,000 square feet of elegant office space to accommodate medical practitioners and related tenants. Careful consideration was given to the architecture and interior design to create an open, welcoming environment with abundant natural light. The architecture will also carry a complimentary theme to its neighbor, Forest Park Medical Center.

Medical professionals will also enjoy the central location of Forest Park Medical Office Building, which is in close proximity to all major Dallas hospitals.
